## INFORMATION UPDATE

To: ATU Local 279 members – Transportation Division.

From: ATU Local 279 Executive Board

Date: January 23, 2025.

RE: Agreement of the CLC Breaks for the Following Grevances:  
GRP-T-01-22, GRP-T05-22 and POL-T-04-22.

.....

We are pleased to share a recent agreement reached regarding Non-Platform Hours surrounding the CLC breaks. As of the first pay period of 2025, any hours exceeding the (30) minutes of the CLC on work, will be calculated as platform hours. Only the 30 minutes for the CLC will be considered non platform hours. In the event that the city is delayed in implementing, the city will retroactively compensate operators for any lost regular or overtime pay.

The (5) minutes of report time (platform) will be reinstated and scheduled in docket following any CLC break. Every effort will be made to implement this change no later than the summer booking 2025. A working group of union, management and scheduling department will be formed to oversee the implementation.

We appreciate your dedicated work and support; we will continue to keep the membership informed of developments.

In solidarity,

  
Noah Vineberg  
President Business Agent
